

Abdirahman Abdiaziz

Open to Remote Opportunities | abdiyare0023@gmail.com

SUMMARY

Frontend-focused Software Developer with approximately 3 years of practical experience building modern, responsive, and database-driven web applications and business systems.

Experienced in React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Node.js, Express.js, PHP, CodeIgniter 4, MySQL, and PostgreSQL.

Strong ability to transform UI/UX designs, business requirements, and product concepts into clean, reusable, responsive, and user-friendly web interfaces. Experienced in developing RESTful APIs, integrating frontend applications with backend services, working with relational databases, debugging application issues, and building practical business solutions.

Comfortable working with Git, GitHub, REST APIs, Visual Studio Code, Chrome DevTools, Cursor AI, and ChatGPT as part of modern software development workflows.

Actively seeking remote opportunities as a Frontend Developer, React Developer, or Full Stack Web Developer. Comfortable working independently, collaborating with distributed teams, communicating through online tools, and delivering software in remote development environments.

EDUCATION

Jamhuriya University of Science and Technology

Bachelor of Computer Science

Completed

Sheikh Da'ud School

Primary & Secondary Education

EXPERIENCE

Software Developer

- Developed and maintained modern web applications using Next.js, React.js, Node.js, and Express.js.
- Built responsive and user-friendly interfaces based on business requirements and UI/UX concepts.
- Created reusable frontend components and structured application layouts for desktop, tablet, and mobile devices.
- Designed and integrated RESTful APIs for business applications, dashboards, and data-driven features.
- Worked with PostgreSQL and MySQL to support database-driven applications and backend systems.
- Implemented backend functionality using Node.js, Express.js, PHP, and CodeIgniter 4.
- Investigated and resolved frontend, backend, API, database, and application-level issues.
- Used Git and GitHub for source control, version management, and development collaboration.
- Utilized Cursor AI and ChatGPT to support coding, debugging, technical research, productivity, and software quality.
- Contributed to software improvements and practical solutions based on business and system requirements.

PROJECTS

Land Legalization & Registration Management System | Technologies: Next.js | TypeScript | Node.js | PostgreSQL

- Developed a web-based system for managing and supporting land legalization and registration processes.
- Built the frontend using Next.js and TypeScript with a structured and responsive user interface.
- Developed backend functionality using Node.js and integrated application services with PostgreSQL.
- Designed database-driven workflows for managing land-related records and application information.
- Created structured forms, data management interfaces, dashboards, and administrative functionality.

- Integrated frontend components with backend APIs for reliable data communication.
- Applied responsive design principles to support different screen sizes and modern web usage.
- Focused on data organization, usability, maintainability, and efficient management of land-related information.

Financial Web Application | Technologies: React.js | JavaScript | Tailwind CSS

- Designed and developed a modern financial web application focused on usability and professional presentation.
- Created reusable React components for dashboards, forms, cards, navigation, tables, and financial information.
- Implemented responsive layouts optimized for desktop, tablet, and mobile devices.
- Used Tailwind CSS to create consistent and maintainable user interfaces.
- Focused on clear information hierarchy and intuitive user interactions.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design

Backend: Node.js, Express.js, PHP, CodeIgniter 4, RESTful APIs

Databases: PostgreSQL, MySQL, SQL Server, SQL

Tools: Git, GitHub, VS Code, Chrome DevTools, Cursor AI, ChatGPT

ADDITIONAL TRAINING

Web Development Training — Kaafiye Technology - Studied HTML, CSS, JavaScript, PHP, jQuery, and Bootstrap. - Continued self-directed learning through practical software development projects. - Developed hands-on experience with modern web development technologies and software development workflows.

CORE PROFESSIONAL STRENGTHS

Problem Solving; Analytical Thinking; UI/UX Implementation; API Integration; Database Development; Debugging & Troubleshooting; Responsive Design; Code Reusability; Performance Optimization; Remote Collaboration; Team Collaboration; Adaptability; Attention to Detail

LANGUAGES

Somali: Native English: Professional Working Proficiency

CAREER FOCUS

Remote Frontend Developer; Remote React Developer; Remote Full Stack Web Developer; Remote Next.js Developer; Remote Software Developer; Web Application Developer
